CASE STUDY · RUTH MACLANG

525 organic visits. 20 inbound calls. Zero ad spend.

What a marketing system looks like when it's actually built — not DIY-ed.

MARKETING SYSTEMS | BUILT FOR LEVERAGE ⚡

Most founders are DIY-ing their marketing.

- Posting when they remember. No structure, no system, no plan.
- No tracking. Can't tell what's working, what's wasted, or where leads come from.
- Marketing depends on the founder's time. Step away and it stops.

02 — THE SYSTEM

5 pieces that turn random marketing into a system.

01 **Owned Online Presence**
Your own channel. Not renting traffic from platforms you don't control.

02 **Google Business Profile**
Findable in search. Driving calls, directions, and direct clicks.

03 **UTM Tracking on Every Channel**
Know exactly where every lead and visitor comes from. No more guessing.

04 **Analytics Installed and Configured**
Every visit, click, and session tracked from day one.

05 **Email and Lead Capture**
Follow up with people who don't convert on the first visit.

03 — WHAT THIS LOOKS LIKE
